ELECTION OF CLAIMS

Applicants elect claims 1 through 11 (Group I) for immediate prosecution and reserve the right to file one or more divisional applications for the non-elected claims.

REMARKS

Claims 1-20 are pending in the application. Claims 1-11, drawn to a method for determining molecular crystal structures, are elected for immediate prosecution. However, by so electing, Applicants do not admit that the restriction requirement is proper. Applicants reserve the right to file one or more divisional applications for claims 12 -20.

Applicants respectfully request an early action on the merits of elected claims 1-11.

Respectfully submitted,

WILLIAM IAN DAVID et al.
